Updated March 2022

Education

University of Washington School of Public Health, Seattle, WA

PhD in Biostatistics, 2020–present

Department committees: Equity, Diversity, and Inclusion Committee (2020–2021), Student-Faculty-Staff Committee (2020–2021)

Bowdoin College, Brunswick, ME

Bachelor of Arts in Mathematics with a minor in Religion, May 2018

Honors thesis: *Exploring random walks on graphs for protein function prediction*

Activities: Bowdoin OutAlly (2015–2018), Bowdoin Food Co-op (2014–2018), Bowdoin Chorus (2017), Bowdoin Chamber Orchestra & Chamber Ensembles (2014–2016)

Summer Institute in Biostatistics, University of Minnesota School of Public Health, Minneapolis, MN

Six-week NIH-funded course in biostatistics and epidemiology, Summer 2017

Budapest Semesters in Mathematics, Budapest, Hungary

Math-focused semester abroad, Fall 2016

Research experience

Fred Hutchinson Cancer Research Center, Seattle, WA

Graduate Research Assistant (September 2021–present)

Conduct COVID-19 prevention and treatment research supervised by Professors Elizabeth Brown and Ruanne Barnabas

Analyzed, presented results, and helped write a paper on the relationship between COVID-19 symptom severity and viral load

University of Washington Department of Biostatistics, Seattle, WA

Graduate Research Assistant (September 2020–September 2021)

Worked on a forensic genetics project supervised by Professor Bruce Weir

Validated new software to evaluate DNA evidence from a mixture of contributors

Bowdoin College, Brunswick, ME

Honors project (September 2017–May 2018)

Conducted research in graph theory with applications in modeling protein-protein interaction networks, advised by Professor Amanda Redlich

Professional experience

Statistics Collaborative, Inc., Washington, DC

Research Associate (August 2019–July 2020)

Research Assistant (July 2018–August 2019)

Provided project coordination for various Phase 2 and 3 clinical trials researching therapies for diseases including HIV, systemic lupus erythematosus, Alzheimer's disease, type 2 diabetes, heart failure, chronic kidney disease, and lung cancer

Assisted in writing and editing interim safety and efficacy reports for clinical trials

Acted as primary contact for pharmaceutical company clients and Data Monitoring Committee members

Provided administrative and research support to Dr. Lisa Weissfeld, Senior Investigator, including assisting with statistical analysis plans

Wrote SAS programs to produce and audit analyses

Mentored a new employee

YMCA Camp Menogyn, Grand Marais, MN

Kitchen Staff (Summer 2016)

Dedicated long hours to preparing, cooking, and serving three meals per day at a wilderness camp for teenagers

Co-guided a week-long canoe trip for underprivileged ninth-graders from Breakthrough Twin Cities

Honors and awards

Bowdoin College

Phi Beta Kappa, Alpha of Maine chapter (May 2018)

Magna cum laude (May 2018)

Honors in Mathematics (May 2018)

Sarah and James Bowdoin Scholar (Fall 2015, Fall 2016)

Bowdoin Faculty Scholarship (Fall 2014)

Teaching experience

Bowdoin College, Brunswick, ME

Tutor (Fall 2017–Spring 2018)

Held weekly drop-in tutoring hours for students taking Statistics and Biostatistics courses

Privately tutored a student taking Statistics

Teaching Assistant (Fall 2017)

Led a weekly study group for students taking Combinatorics and Graph Theory

Grader (Fall 2015–Spring 2017)

Graded homework for Multivariate Calculus and Linear Algebra classes

Volunteer service

Common Good City Farm, Washington, DC

City Farmer (2018–2019)

Volunteered weekly at a nonprofit organic farm in an underserved neighborhood

Assisted the farm manager with seasonal farm tasks and volunteered at community events and fundraisers

Worldwide Opportunities on Organic Farms, Clearwater, MN and Bostwick, GA

Volunteer farmer (2016 and 2017)

Worked for several weeks on small, family-owned organic farms in exchange for room and board

Assumed responsibility for daily farm chores, assisted with larger projects, and sold produce at weekly farmers' markets

Sustainable Bolivia, Cochabamba, Bolivia

Volunteer, Movimiento Sonrisa, Hospital del Niño Manuel A. Villarroel (Summer 2015)

Provided daily emotional support to long-term patients in the pediatric burn, postoperative, and malnutrition wards

Helped raise funds and make food for the patients' families

Skills

Proficient in R and LaTeX; familiar with SAS, Python, and Mathematica

Conversational in Spanish
